Q: ASP.NET API development I want to develop an API for my web and mobile app. I am using .Net 4.0 API. please tell me what features I have to use for my API? and is there any good link for API?

A: the API should be loosely coupled, but easy to maintain and test. you can read more about good practices here: also, if you want to use an API for mobile apps, here is what I do: Pledge \$5 or more per month You will receive a mention on the posters, and a thank you letter for paying for a healthy vegan lifestyle! Kickstarter is not a store.

Pledge \$10 or more per month You will receive a mention on the posters, a thank you letter
