Tiny Town VR - Zombie is a free content pack that includes the following content: 1. The Zombie Pack Interface 2. The "Dead Bodies" Scenario 3. 12 Zombie Props (3D, 2D or Inflatables) 4. 40 New Buildings 5. 4 New Vehicles **Important: The items listed above are meant to be unlocked within the free "Dead Bodies" scenario. If you want them unlocked for your own worlds, you'll need to buy a separate version of the "Dead Bodies" scenario (this is $0.99). Zombie Props: I created these 3D, 2D or Inflatables to include as props in your VR worlds. You may use the props in this pack for free. However, if you choose to use any of them in-world, each one is individually available for purchase in one of my other scenarios for $2.99 each (these prices are effective for free scenarios too). Tiny Town VR - Zombie Props: 1. Zombie Head - $1.99 - "Dead Bodies" Scenario 2. Zombie Mask - $1.99 - "Dead Bodies" Scenario 3. Zombie Body Parts - $1.99 - "Dead Bodies" Scenario 4. Journey back to a world that no longer exists: you're trapped in a treacherous virtual reality created by a star-studded cast of eccentric characters. As you move through a simulated universe populated by classic characters and iconic locales from your favorite games, you must solve puzzles and defeat enemies in order to save the game. As your playable character, you control four distinct playable characters, each with their own distinct play style and weapon types. Along with your quick and agile dexterity skills, you'll also have to employ one of a variety of weapon types to defeat the game's numerous obstacles. Are you prepared to fight for survival? Are you brave enough to traverse a game that no one else can? PS: This game is for you if you're a fan of the 'Pokemon' franchise. It will take you on an emotional journey through the best of the best games of the franchise and through some of the best crafted locales ever created for video games! You take control of a maintenance engineer on his first day of work in a space station owned by an international corporation. It is a massive space station, housing one of the three largest power generators and the habitat for the crew of about 1000 people. The player's primary responsibility is to remain undetected so that he can repair the power generator and restore the power flow to the rest of the station. As the player has limited protection equipment the player has to survive while gaining the trust of the people on board and unraveling the mystery of what caused the power outage that has trapped the crew and you in this terrifying place. The real fun comes into the player's ability to discover and solve the mystery and the game runs of of a huge open world to explore and solve puzzles with as you go along. The game is designed so that when you can explore the game world at their own pace and spend longer or shorter amounts of time tackling each puzzles and story encounters along the way. The game features many different npc characters that the player can interact with to have conversations or engage in non violent actions such as chatting or watching a vid stream of the player's daily activities. The player can gain information from these interactions as to whether this is a good time to be discovered or not. Character information: Restart Screen: Vulnerability Alert: Theme Tune: The game is not as difficult as it looks but I think it becomes more challenging as the game develops. The game is mostly puzzle based but it also features mini games. It is designed to be easy to pick up and learn but at the same time contain many challenges and offer a degree of depth not normally seen in many sandbox games. Combat is not used in the game. The game should require about 10-12 hours of gameplay to complete the main story. I would be very happy to listen to any feedback regarding the game or any of my work so far. The Voice Boxes in the game are a rough idea of how the conversations might turn out but they are all fully voice acted and there is no art to go with

What's new in The Sacred Acorn:

Now that I am spending more time with the very young and keeping irregular hours, my rough estimation is that these temporal spaces are very generous. There are occasions when I take longer to eat and to go to the bathroom even. Such positions have been interrupted regularly but I don't think I am the only person who I have felt well doing this. It has hardly ever been about quantity of nutrition. It's not that there is a lot to watch on Netflix. Usually there is actually a lot. If not, then to just watch some bad show or re-watch whatever show someone has already seen once - that usually is at a higher volume. Some good stuff on the side - playing on the plethora of the Internet, Reddit, etc - but that is so much related in what has been the case. The times with the negative energy seem to make up the bulk of how long I work. But not about that - I am fairly exhausted, tired. The ones with the positive energy are mostly punctuated by times when I feel lost in thought, moments where I think only to myself, moments of planning or that I forgot that I was planning and the time ran by. For some time. (As in months.) What I think the important thing about the bad times - worse than the big picture - is that I notice and I have time. For me, the occasion is not defined by my job or the other projects but by the need to recover. Somehow the nights feel the most exhausting from the loneliness. At the same time, I feel uncomfortable with the intrusion of loneliness. I like people. I like to interact with them, those who live the physical life around me. However, what I don't like is the excess of loneliness, the times and places where I feel alone. I usually end up thinking about my family. It's not only that I don't get it. They just feel so far away from my reality. It's not a bad feeling to have or anything. Just added to an emotional baggage. But, I see it can always be really annoying. I don't want to get into an unnecessary conflict. I'm not the one who decides to break up with my first date. And this question is in no way an attempt to make something happen between us, just to protect you from unhappy phrases and I hope for a lovely and loving response. I really wish this were not true. I guess there was a sort of belief. Now that I have been witnessing

In this free-to-play open-world MMO game, you are invited to control the powerful Hanse (country), a country scattered with strange phenomena. A number of high-tech countries have joined the Hanse, and they form the Triune Alliance. Within the Hanse, you can explore all types of exciting missions. The place and nation you control is in the center of it all, as a ruler of the country, you have to create a great realm with Hanse's pectoral symbol, the cruciform. I have tried to make a free country game with a wide open region, similar to Brave Frontier. In addition, I was inspired by some famous Korean MMOs, and made many changes to create my own new game. The guild system, server, PVP system and of course the graphics were all set in a new way. "FANG" and "GAON" are popular in The Hanse, they all come from different continents. However, the "Fang" are tough and they have two strong forces of each type; while the "Gaon" are known as the "sleeping beauty" and have three strong forces; while the "Popular" have a strong force, but most of them are not organized. If you are looking for a more fierce game, "Fang" has a large number of strong troops to fight against. If you want a more relaxed game, then you should select "Popular" because they have a strong troop and a good-looking character. The more you master "Fang" and "Popular", the more the game will be fun. FEATURES The Gown Job System All of your characters are wearing the same set of clothes. It's easy to switch your costume and stay cool! Server Selection You can choose your own server from any area of the country you want. It's easy to find a server with a similar environment and close the distance to your friends and guild members. Online and Offline Battles Enjoy and fight against your friends during offline battles. And when you are resting or sleeping, you can fight against your enemies during the night. Guild System It's so easy to form or join a guild. You can contact your guild members and enjoy wonderful guild missions.
